

THONG VATHANA

Junior Developer

ABOUT ME

I'm an IT Engineering student and Frontend Developer with nearly 1 year of professional experience at solution company. I specialize in building responsive, user-friendly web applications and integrating full-stack solutions. I enjoy turning ideas into practical products, collaborating with teams, and continuously improving my technical skills. I have also taken the lead in developing and coordinating full-stack projects from development to implementation.

Experience / Projects

• Frontend Developer – Nov 11 2025 – Present

Developed and maintained responsive web applications using Angular, TypeScript, Bootstrap. Implemented reusable components, integrated APIs, improved UI/UX, fixed bugs, and collaborated with the development team to deliver reliable and user-friendly solutions.

• Full-Stack Project Lead – Personal / Academic Project

Led a full-stack project from planning and system design to development and implementation. Managed both frontend and backend development, designed the database structure, integrated APIs, and coordinated project tasks to deliver a complete working solution.

• TechHub – Personal

A modern full-stack e-commerce platform for browsing and purchasing technology and electronics products.

• TosTinh Store – Personal

A dynamic e-commerce platform with intuitive product browsing, filtering, and shopping features.

• SkillMatch AI – Final Year

An AI-powered job matching platform that connects job seekers with relevant opportunities based on their skills and experience.

Education

• Royal University of Phnom Penh (RUPP)

BSc. Information Technology Engineering 2022 – June, 16, 2026

• Paññāsāstra University of Cambodia (PUC)

Full-Time Student 2023 – May, 05, 2025
